RE: MB Docket No. 04-233

To whom it may Concern:

This comment is in regards to LPFM and the proposed priority they would take over FM translator service.

My wife and I live in Frankfort Kentucky and we listen to K-LOVE on 89.9FM, this is an FM translator service and we love being part of a nationwide family of listeners. The world we live in is a global one and services such as the FM translator service are a great communication tool to reach a large audience and still make listeners feel connected.

I'm really concerned that if LPFM broadcasters were allowed to take priority on the air in our area our interest in FM broadcasting would be diminished by a potential loss of really good programming, such as our K-LOVE station. As a voting US citizen I truly believe that the services provided by K-LOVE and other FM Translators services is in the best interest of the public. My hope is that the FCC would take my thoughts along with all of the others I'm sure you have received on this matter and make a decision that would be best both for the common good and in the common national interest.

Thank you for your time.

Best Regards,
